**System Requirements:**

\* OS: Windows 7 \* RAM: 6 GB or more \* Graphics: Intel HD 3000 series or newer \* Storage: 4 GB \* DirectX: Version 11 \* System Requirements: For the most part, this has been a very smooth ride. Playing it at 4K with 4xAA looks and feels great. However, I've had quite a bit of trouble getting it to run. To be honest, I'm not sure if this is a problem with my graphics card, or if I need a new motherboard. I've had
